

# Meyer | NetSuite for Manufacturing

**ORACLE  
NETSUITE**  
Solution Provider

The right software solution by itself will not run your business. It takes a team. In addition to selecting the best cloud solution on the market, manufacturing companies must constantly innovate to keep pace with customer expectations. The same is true for your business solution partners. It takes a team of dedicated professionals tightly focused on your business sector to deliver a truly competitive platform. Meyer is an Oracle NetSuite Solution Provider, leading the enterprise software space for over 27 years. NetSuite produces the world's #1 business management software, and Meyer manages everything else in the process for you, the manufacturer, including: Pricing, Licensing, Implementation, Support & more.

Meyer is Trusted by

**“We never would have been able to grow to where we are today without an ERP system like NetSuite.” - Deepak Jain, Founder, Fluance**

93% of surveyed organizations increased visibility & control over their business since switching to NetSuite from their outdated ERP or Spreadsheet System. The difference is like night & day.

- **Departments Are Integrated, Visibility Expands**
- **Data is Accurate & Available Globally Across Your Organization**
- **Productivity Increases, Costs Are Lowered, Profits Rise**

**ORACLE  
NETSUITE**  
Solution Provider

Today, many manufacturers rely on multiple point solutions that can't achieve all of their financial reporting needs. Because of this, companies leverage tools such as Excel to piece together and view financial and accounting data. This static data makes it nearly impossible to obtain accurate insights into the business and often results in errors. The outcome is significant amounts of time wasted on building reports, hindering the ability to make intelligent decisions. Additionally, the lack of accurate data across the organization can affect all departments, resulting in problems such as restricted cash flow as well as lengthy and inefficient period-end close process.

NetSuite's unified platform ensures complete real-time visibility into the financial performance of the business from a consolidated level down to the individual transactions. It seamlessly integrates with all NetSuite order management, inventory, CRM and ecommerce functions to streamline critical processes and deliver the best outcomes for your business.

NetSuite has a rich history of working with companies within the manufacturing industry. NetSuite has taken this industry expertise and bundled it into a manufacturing solution called SuiteSuccess that solves your unique industry challenges. SuiteSuccess is the culmination of a multi-year transformation effort. Together, Meyer and NetSuite work to identify your business needs and priorities because every organization has a different starting point, business model and direction moving forward.

Is NetSuite right for your organization? Let's find out together, beginning with a conversation.
